EXPERIENCE

Frontend Web Developer
Phenix Corporation

2022 - 2023
Yerevan

Developed and maintained simple web pages using HTML, CSS, and JavaScript. Collaborated with team members to implement design specifications and ensure optimal user experience.

Utilized responsive design techniques to ensure cross-platform compatibility.
Continuously improved code quality through testing and refactoring.
Stayed up-to-date with emerging trends and technologies in web development to enhance skills and knowledge

EDUCATION

Bachelor's degree

2012 - 2017
Yerevan

Yerevan Haybusak University

TRAINING / COURSES

Smart Technology / Frontend development

10.2022 - 12.2017
Yerevan

During my 2-month course at a Smart Technology, I gained practical experience in building dynamic web applications using React and Redux.

I worked on various projects and learned how to efficiently manage state, implement component lifecycle methods, and utilize Redux for global state management.

Through this immersive learning experience, I developed a strong foundation in modern web development and am excited to apply my skills to real-world projects.

SUMMARY

As a frontend developer, I am eager to gain hands-on experience and contribute to the development of innovative web applications.

With a strong foundation in programming principles and a passion for problem-solving, I am committed to delivering efficient and high-quality code.

I am now seeking an internship opportunity where I can continue to learn and grow as a developer while making meaningful contributions to a dynamic team.
